

# S.A.L.V.E. International Community Mapping Research Project

Bugembe

August 2016

# Introduction

S.A.L.V.E. International works with children living on the streets of Jinja, Uganda to help them leave the streets and return home to their families and re-enter education.

The purpose of this research was to map out the organisations, schools and vocational training centres working in Bugembe.

Often when we are working in the community, we are approached by members of that community in need of services that we are unable to provide. We are aware that there are many organisations providing a range of services to meet the needs of the local community and we wanted to come up with a directory of these organisations so that in the future, when we come across someone in need of a service we are unable to provide, we can refer them to an organisation who may be able to offer them the support they need.

We hope that this research will not only benefit S.A.L.V.E. but also all of the organisations and schools involved in this research.

Alongside this directory, we will be creating an online map with all of the organisations and schools in this directory, where any new schools or organisations can be added.

# Organisations

## Care 4 Kids

**Type of organisation:** NGO

**Year founded:** 2005

**Contact details:** Kituba Juliet (Administrator- 0777161947, 0701685840)
